

# Care instructions

## Cleaning

Wipe off dust with a soft dry cloth, or use a vacuum cleaner with soft upholstery brush attachment.  
Wipe off marks with a soft damp cloth or sponge, using a mild detergent if necessary.  
Dry with a soft lint-free cloth.

## Mopping

When mopping the floor, no special care need be taken, as the legs have a waterproof parchment coating. However, if staining occurs from repeated mopping, wipe off marks with a damp cloth or sponge, using a mild detergent if necessary.

## Care

Move-it Tables have two coats of micro-porous varnish on the table-top which will resist spills, and allow dried-on spills, such as coffee, to be wiped off with a damp cloth. The trade-off of this fully repulpable varnish (recycling friendly) is that it is relatively delicate, and oil spilt on it will gradually seep through the pores, so needs to be removed swiftly to avoid staining.

The parchment coating on the table legs is tough, but should also have oil-based marks removed promptly to avoid possible staining.

# Hazards

## Danger of falling goods:

Do not allow children or animals to run underneath the Move-it Gifting Tables in-store.  
If this is an unavoidable risk, the gap between the table's legs can be blanked off with card, ribbons, or other safe decorative materials.  
Do not allow customers to lean on the display, or supporting Move-it Gifting Tables.  
Do not allow customers to bang into or disturb the display or supporting Move-it Gifting Tables.

## Loading

Maximum load for each Move-it Gifting Table top is 250N (25Kg), or 750N (75KG) for the set of three.

Do not be tempted to overload Move-it Gifting Tables, as a large quantity of heavy goods in a display presents a significant risk to a small child if it is disturbed and falls down.

## Flammability.

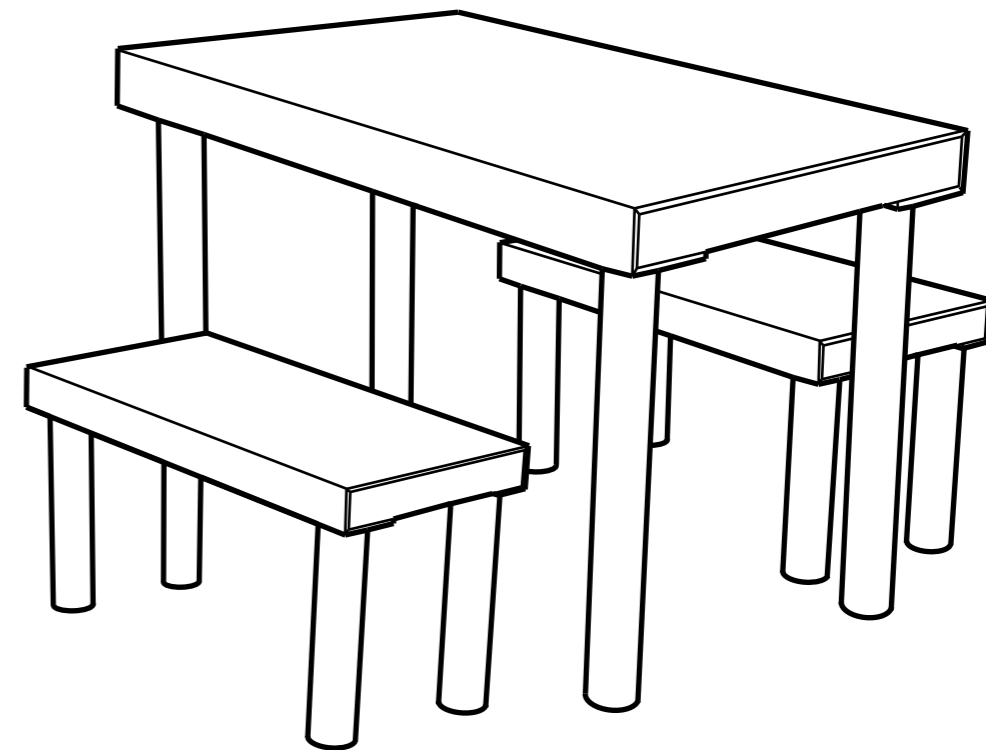

Keep away from direct contact with naked flame at all times.
